

IHIMA26 Highlights

## Feedback from attendees:

Great job!

Networking was great!

Enjoyed this year's conference. Already looking forward to next year!

This is a great meeting. I enjoyed learning about artificial intelligence and its impact on our industry. I also appreciate hearing how it's being implemented in a hospital system and things learned along the way.

Always love the opportunity to meet peers in person and make new connections!

Thank you for all the work put into making these conferences available!

Lots of potential networking opportunities with colleagues and vendors.

All Board and committees do a great job planning and organizing for this big, insightful event. Well done!

Thanks for all of your hard work!

This was my first time attending an IHIMA Conference, and I enjoyed the experience. The speakers, vendors, and food were wonderful. The information was relevant and thought-provoking. You were able to include quite a bit of helpful information into the day.
